

cleanfix

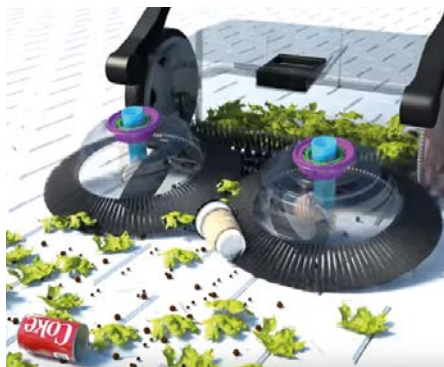

HS770 CAS

The sweeper is equipped with battery-powered side brushes that have a 4-stage speed control and can be flexibly adapted to various cleaning requirements. Both the side brushes and the roller brush can be adjusted individually. White LED lighting on the drive path ensures good visibility and safety in low light conditions. Particularly practical: the device is also ready for use without battery power, which guarantees maximum flexibility.

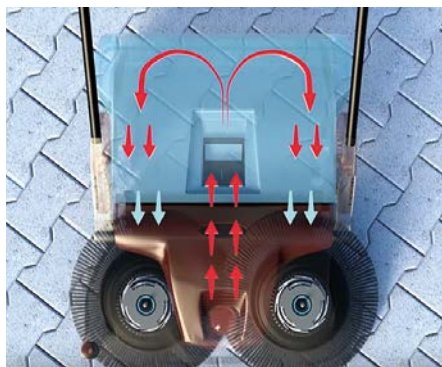

Clean. Cleaner. Cleanfix.

HS770 CAS

cleanfix

Turbo sweeping system. Counter-rotating plate brushes push the swept material directly into the collecting container.

Low dust formation thanks to intelligent air routing. Inside the machine, the dust-laden air is cleaned and returned to the sweeping circuit.

Thanks to the lateral guide roller, sweeping close to the edge is effortlessly possible without damaging the machine or surfaces.

Technical data

Productivity rate theoretical	3600 m ² /h
Dirt container volume	40 l
Working width	77 cm
Side brush	height-adjustable
Main brush roller	height-adjustable
Weight (without/with battery)	16 kg / 17 kg
Measurements l / w / h	100 / 78.5 / 105 cm

CAS battery 10 Ah

Battery technology	Li-Ion
Running time, up to	5 h
Charging time	93 min

HS770 CAS

077.500 without battery and charger

Scope of delivery

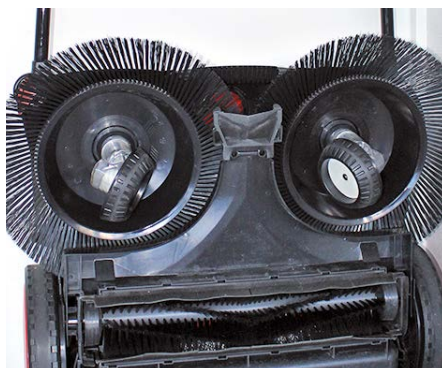

- Main brush roller
- Side brush

Special accessories

- 025.511 CAS battery 10.0 Ah (1 pcs)
- 025.516 CAS charger

With an additional fine dirt sweeper roller, the machines sweep twice in one pass and pick up even the finest dirt particles cleanly.

Patented system, sweeps forwards and backwards optimally

Cordless Alliance System (CAS) – One battery for everything! Cross-manufacturer compatibility for over 300 devices.
